

LIQMAX III

RGB VERSION

ELC-LMT240-RGB

- ▶ **Patented Dual Chamber water block design**
- ▶ **Patented Shunt Channel Technology**
- ▶ **Aurabelt™ design on water block and luminous fan display vivid RGB lighting effects**
- ▶ **Exclusive dual-convex blade can create high-volume air flow (72.1 CFM)**

LIQMAX III RGB, a RGB AIO cooler for Intel® and AMD® CPU platforms, is characterized by vivid RGB LED lighting. Aurabelt™ design on water block and hub-lighting RGB fan are designed to synchronize with RGB-ready motherboards (pin assignment: +12V/G/R/B). The Patented Dual Chamber Design water block has a Central Coolant Inlet (CCI) structure, combined with the Shunt-Channel Technology (SCT) on the cold plate, it is able to inject the coolant at the hottest spot to prevent heat surges and shorten the coolant flow path, resulting in faster heat transfer. In addition, the dual-convex blade fan is able to generate down force air pressure and high-volume air flow to provide superior cooling performance. LIQMAX III RGB cooler is an ideal choice for mainstream water-cooler RGB gaming rigs.

Features

- ▶ **Patented Dual-Chamber Design water block**
Patented Dual-Chamber Design isolates the pump from the heat to prolong the cooler's lifetime
